PROFILE

MSc Finance student at EU Business School Munich with **hands-on experience in Excel, Power BI, Python and SQL and a solid grounding in valuation, financial reporting and SAP S/4HANA FICO**. In a 6-month Data Analyst internship I built Power BI dashboards to track KPIs, analysed business and financial datasets, and supported financial reports by standardising the underlying data. Structured, detail-oriented and fluent in English; seeking a working student role in finance, controlling or data in Munich.

CORE SKILLS

Finance & Analysis: Financial ratio and KPI analysis (Kennzahlen) · Valuation: DCF, trading multiples, LBO · Financial statement analysis · Financial reporting support · Market research (PESTLE)

Data & Reporting: Excel (pivot tables, lookups) · Power BI dashboards · SQL · Python (pandas) · Data cleaning, validation and standardisation · PowerPoint

Systems & AI: SAP S/4HANA FICO (MSc coursework) · MS Office · AI assistants (ChatGPT, Claude) for analysis, drafting and automation ideas

Working style: Analytical, structured and detail-oriented (sorgfältig) · Works independently (selbstständig) and in teams · Clear communication · Process improvement · Strong affinity for numbers (Zahlenaffinität)

Languages: English – fluent (working language) · German – A2, learning towards B1

PROFESSIONAL EXPERIENCE

Data Analyst Intern | K.M.A Arjun Analytics, Hyderabad, India
Mar 2024 – Aug 2024

- Built interactive Power BI dashboards to monitor KPIs (Kennzahlen) and visualise business performance.
- Analysed business and financial datasets in Python and Excel throughout a 6-month internship, delivering ad-hoc analyses that identified trends and actionable insights.
- Cleaned and transformed raw data and calculated financial ratios to support financial analysis and decision-making.
- Supported the preparation of financial reports and improved reporting accuracy and efficiency by standardising the underlying data.

PROJECTS

Company Valuation & LBO Analysis | MSc coursework, EU Business School
2025 – 2026

- Valued companies with three methods – DCF, trading multiples and LBO – in Excel; module grade 90% (M&A, Buy-Outs & Corporate Restructuring).
- Compared three financing structures (equity, debt, mezzanine) and analysed leveraged buy-out and deal structures.

Market Entry Strategy – Tom Ford (Swiss Market) | Master's project
Sep 2025 – Sep 2026

- Analysed the Swiss luxury market across all six PESTLE dimensions and the competitive landscape.
- Defined target customer segments and recommended market entry, pricing and positioning.
